

III. REMARKS

Claim 3 has been amended to include the limitations of claims 1 and 2.

Claim 6 has been amended to read "the sleeve."

Claims 7 and 21 have been amended to correct "side" to read "slide."

The limitation from claim 8 regarding the position of the storage device on a rail.

The relation between biasing member, post and release member has been clarified by reciting the mechanical engagement and disengagement in those portions of amended claims 3, 9 and 15 as were derived from original claims 2, 8 and 15.

Claims 3, 9, 14 and 16 have been amended to cancel base "member" and insert instead portion.

Claim 14 has been amended to set forth maintaining position relative to the ends of the rail.

The claims have also been broadened to change "socket" to read "drive member." Other drive members, such as screwdriver, Torx or hex bits will be understood by one of ordinary skill to be used with ratchet wrenches, in addition to sockets.

Claims 22 - 27 are canceled, without prejudice.

Applicant notes that this application did not appear to be available on PAIR.

It is believed all the objections and rejections have been satisfied by this amendment and in light of the indication of allowability, formal Notice of Allowance is solicited.

Respectfully submitted,
